

Parent Survey February 2021 - Remote Learning

What could we do to improve our remote learning offer?

Reduce the amount of work that is uploaded each day.

The amount of work provided each day through Seesaw meets the DFE requirements. There may be days that you cannot complete all the work. That is ok - just go with your child and circumstances!

More off screen time.
Wellbeing days.

We are going to introduce Wellbeing Wednesday for all pupils - this will continue when pupils return to school.

Longer sessions
More sessions each day
Live lessons

Research shows that live lessons via Teams is not the most effective remote learning offer for primary school pupils. We use a range of ways to support learning including videos from Oak Academy,

Seesaw is difficult to use and navigate.

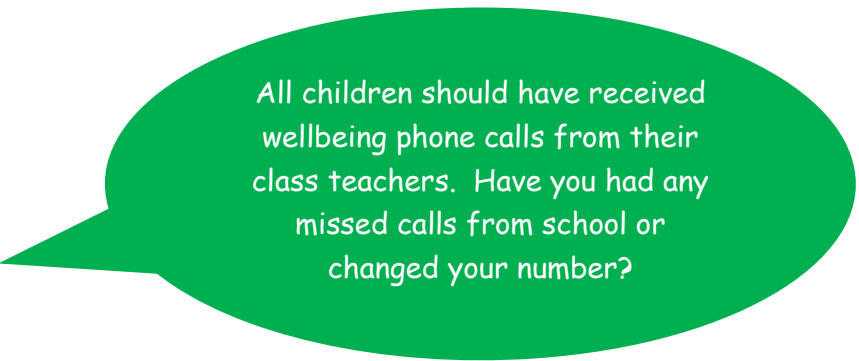

If you are having any issues or problems with using Seesaw, please email the teacher who will be more than happy to support.

Phones not ideal for Seesaw
Print work and provide packs
We don't have a laptop

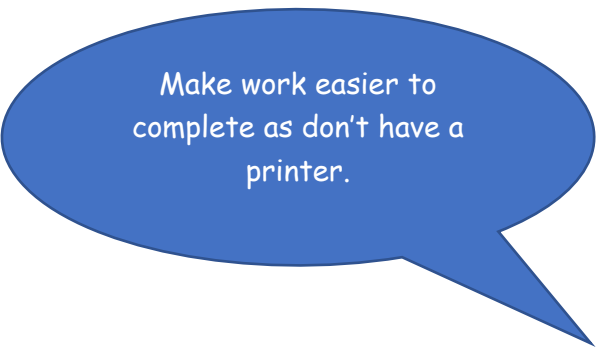

If you have any issues, then please contact the school. We have supported many families and have devices that you can borrow, data we can provide and always happy to support where we can. Just ask!

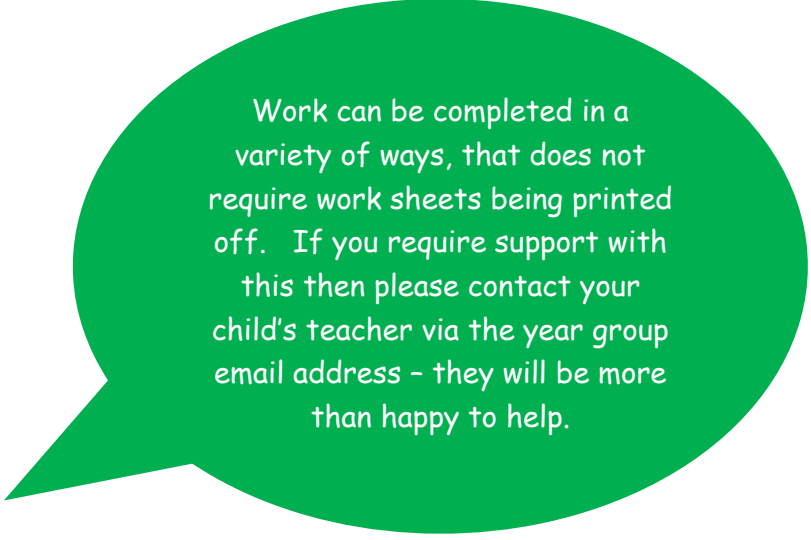

Wellbeing phone calls

All children should have received wellbeing phone calls from their class teachers. Have you had any missed calls from school or changed your number?

Make work easier to complete as don't have a printer.

Work can be completed in a variety of ways, that does not require work sheets being printed off. If you require support with this then please contact your child's teacher via the year group email address - they will be more than happy to help.

Please remember that if you have any issues, concerns or problems then school are always here to support. The year group email addresses now give you direct access to your child's class teacher, who is more than happy to support via email or giving you a phone call.

We have supported many families over the last couple of months with the issues and concerns that have been mentioned in the survey.
